

Your payroll. Fully managed. Always compliant.

Managed Payroll – delivered within your Workday environment

Running payroll on Workday is just the start.

Keeping it accurate, compliant, and resilient — every fortnight, across every pay group — requires deep expertise, governance, and people who know your environment. Mivada delivers all of that as a fully managed service, operating inside your Workday Payroll instance.

Zero tolerance for payroll error

Our team runs your Workday Payroll every pay period — with the governance, controls, and expertise your employees rely on.

You stay in control

We operate your payroll; you own the environment. Full visibility over reporting, approval workflows, and configuration — nothing happens in a black box.

Compliance that doesn't sleep

Super, STP, PAYG, Modern Awards, and EAs — our team tracks every legislative change so you don't have to.

01 END-TO-END PAYROLL DELIVERY

Core Payroll Operations

- › Gross-to-net payroll processing across all entities and pay groups, including pay cycle scheduling, approval workflows, and exception handling.
- › Ongoing review of your payroll configuration — we identify issues, recommend changes, and coordinate with your Workday team to implement them.
- › Employee query management with tier 1 payroll support, so your HR team isn't fielding pay questions.

02 COMPLIANCE & STATUTORY

Obligations Handled For You

- › Superannuation calculation and lodgement — SGC, salary sacrifice, and clearinghouse management across all pay groups.
- › STP Phase 2 reporting, PAYG withholding, and year-end finalisation — on time, every time.
- › Modern Award and EBA interpretation with ongoing clause monitoring so you stay ahead of legislative changes.

03 GOVERNANCE & REPORTING

Oversight and Transparency

- › Monthly payroll dashboards covering cost, headcount, and variance reporting with a complete audit trail and control framework.
- › Quarterly governance reviews with your HR and Finance leads to ensure alignment and continuous improvement.

WHO IS MIVADA

Australian owned. Workday specialists.

Certified prime services partner for HCM, Payroll, and Financial Management — with 10+ years delivering in the Australian market.

1,000s

Pay runs supported

100s

Parallel runs delivered

200+

Team across AUS & India

THE MODEL

- ✓ Hybrid delivery — onshore lead and operations, with offshore scale where needed
- ✓ SLA-driven — defined response, resolution, and pay cycle commitments
- ✓ Built inside your Workday — no parallel system, no data duplication
- ✓ Experienced team — Workday payroll specialists, 3+ years average experience

THE INVESTMENT

- **Per-payslip pricing** Scales with your headcount and pay frequency
- **Fixed-price option** Available subject to needs for predictable budgeting
- **No hidden fees** Compliance, reporting, and governance included

WHAT HAPPENS NEXT

- **Scoping call** Pay groups, volumes, and compliance obligations mapped
- **Parallel run** We run alongside your current provider before full cutover
- **Go-live** Mivada takes ownership of your Workday Payroll environment

YOUR TEAM RETAINS

- ✓ Full access to your Workday environment and reporting
- ✓ Approval authority over every pay run before submission
- ✓ Sign-off on all configuration changes
- ✓ Direct relationship with Workday as the licence holder

Let's start with certainty.

Who's behind your Managed Payroll.

Built for payroll compliance. Australian owned. Workday specialists.
Proven at scale.

Mivada is an Australian owned technology consultancy founded in Sydney in 2014.

We help organisations build connected enterprises — where HCM, payroll, finance, and data work as a unified system, not disconnected services. Our consultants have deep payroll and award expertise in the Australian market.

No key-person dependency

Mivada provides a team, not an individual.
When someone leaves, your payroll continues without interruption or knowledge loss.

Deep Workday specialists

Our consultants average 3+ years Workday experience and 3+ certifications each. This isn't a staffing exercise.

Proven at scale in Australia

We've delivered complex programmes for some of Australia's largest organisations across financial services, retail, mining, and not-for-profit.

01 PAYROLL TRANSITION EXPERTISE

We Know Where You're Coming From

- Our consultants have delivered payroll transitions from SAP, Aurion, Chris21, MicroPay, and more — we know the data, the gaps, and the pitfalls.
- Parallel-run onboarding available — we operate alongside your current provider before full cutover, so there's zero disruption to your employees.
- Hands-on experience across Australia's most complex award structures and multi-EBA payroll environments.

02 DELIVERY MODEL

Senior People, Not a Bench

- Not a Big 4 model — lower overheads mean senior, certified specialists on every engagement, not a rotating bench of graduates.
- Sydney headquarters with a named Australian lead on every engagement; Hyderabad centre of excellence for offshore scale during AU business hours.
- Accountable local leadership with the economics of a global model — you get responsiveness and value.

03 BEYOND PAYROLL

Your Investment, Protected

- Managed Payroll is one part of a full Workday services capability — HCM, Financials, integrations, and Application Managed Services all under one roof.
- If your needs change, we scale with you — no re-tendering, no new vendor onboarding.

WHY MIVADA

Your payroll partner, not a vendor.

We operate inside your Workday environment as an extension of your team — not a black box outsource.

100%

Workday focused

10+

Years in Australian market

AU/NZ

Payroll specialists

SYSTEMS WE TRANSITION FROM

- ✓ SAP HCM / SuccessFactors
- ✓ Chris21 / iChris
