

The clarity to commit. The plan to deliver.

Payroll Readiness Assessment — clarity before commitment

Changing your payroll is one of the most consequential technology decisions your organisation will make. It's not something that's okay at 95%. It has to be right. This assessment gives you the facts, the risks, and the plan — so you can make the decision with confidence, not hope.

⚠️ Zero tolerance for error

Payroll is different from every other business system. Your people rely on it every week. Getting it wrong — even once — carries compliance exposure, legal risk, and a trust that's very hard to rebuild.

⚠️ Your payroll isn't standard

There's no standard route to Workday. Your award structure, data landscape, and existing payroll create a unique set of challenges. We map them first — before anyone prices anything.

⚠️ What's missed at scoping shows up at go-live

The assumptions made at contract signing become your problems in month six. We surface complexity early — so your implementation starts with facts, not guesses.

01 WEEK 1 — UNDERSTAND YOUR CURRENT STATE

Interviews & Workshops

- › Stakeholder interviews across HR, Payroll, Finance, and IT
- › Operating model workshop — Entities, Pay Groups, Locations, and GL Strings
- › Award and EBA complexity assessment — Standard vs. Custom clause classification and risk rating
- › Legacy data and integration architecture review — availability, cleanliness, and balance

02 WEEKS 2 & 3 — MODEL YOUR FUTURE STATE

As-Is Analysis & Future State Options

- › As-Is documentation — current state across people, payroll, and data landscape
- › Future state options with Gap Analysis — what needs to change and what it will take
- › Internal Mivada modelling: effort, timeline, and costing anchored to actual findings

03 WEEK 4 — BUILD YOUR DECISION PACK

Transition Plan, Roadmap & Executive Playback

- › Transition plan options with risk-rated delivery pathways
- › Delivery roadmap — resourcing, phasing, and schedule
- › Executive Presentation: the Decision Pack with a Delivery Confidence Rating

THE DELIVERABLES

- ✓ As-Is Analysis & Complexity Scorecard
- ✓ Future State Options & Gap Analysis
- ✓ Transition Plan with Risk-Rated Pathways
- ✓ Delivery Roadmap — Resourcing & Schedule
- ✓ Executive Decision Pack — Board-Ready with Confidence Rating
- ✓ Fixed Price Proposal

THE INVESTMENT

\$49,950 ex GST • Fixed Price

Subject to standard scope and T&Cs.

Should you proceed with your Workday implementation, this investment is fully credited against the project.

WHAT HAPPENS NEXT

- Move into a fixed-price Workday implementation with scope you can defend
- Take a confidence-rated delivery plan to your board or executive team
- Compare delivery options on real findings, not consultant assumptions
- Walk away with clarity — even if now isn't the right time to proceed

Let's start with certainty.

Who's behind your Readiness Assessment - Mivada

AUSTRALIAN OWNED. PAYROLL & WORKDAY SPECIALISTS. PROVEN AT SCALE.

10+

years Workday Services
in Australia

30+

implementations
delivered

2,000+

integrations built

200+

team across AUS & India

Mivada is an Australian owned technology consultancy founded in Sydney in 2014. We help organisations build connected enterprises — where HCM, payroll, finance, and data work as a unified system, not disconnected services.

WHY MIVADA FOR PAYROLL

We're Workday specialists with deep payroll and award expertise in the Australian market. Certified prime services partner for HCM and Payroll, with hands-on experience across Australia's most complex award structures and payroll environments.

Our consultants have delivered payroll transitions from SAP, Aurion, Chris21, MicroPay, and more. We know exactly where you're coming from — which makes getting to Workday faster and smoother.

Beyond implementation, we offer Payroll as a Service, Application Managed Services, and 2,000+ integrations delivered — so your investment is supported from go-live and beyond.

WHAT SETS US APART

Australian owned. Not a Big 4 model — lower bureaucracy, faster decisions, and a direct escalation path to our CEO.

Deep specialists. Our consultants average 3+ years Workday experience and 3+ certifications each. This isn't a staffing exercise.

Hybrid delivery. Accountable local leadership and delivery with offshore scale — aligned to Australian business hours and SLAs.

Proven at scale. We've delivered complex programmes for some of Australia's largest and most demanding organisations.

YOU'LL RECOGNISE OUR CLIENTS

Qantas · Guzman y Gomez · Western Sydney International Airport · Nine · NAB · Rio Tinto · Dnata · Anglicare · Kennards

OUR DELIVERY MODEL

Sydney HQ · Onshore leadership, delivery and accountability

Hyderabad · Offshore scale, AUS hours
